71, Fenchurch Street, E.C. 3.

18th October, 1921.

Dear Sirs,

I duly received Mr. Campbell's letter of the 12th instant, in further reference to the case of the fractured cast steel stern frame, which was taken out of the s.s. "KORANTON" and note his remarks on the subject.

I may say that the matter has been very carefully reviewed, and, whilst thanking Mr. Campbell for his suggestion as to casting of holes in stern frames, it is not considered advisable to adopt this suggestion.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

NEWCASTLE-ON-TYNE.
