

s.s. "EARL OF DURHAM" ex "JOLLY CHRISTINE" No.18537 in R.B.

In order to facilitate the survey of the propelling machinery the following particulars should be furnished, viz:-

Name of Engine Builders

Diameter of cylinders

Length of stroke

Working pressure

Diameter of propeller

Whether the screw shaft is fitted with a continuous liner or otherwise.

Sizes of crank, thrust, intermediate and screw shafts.

A plan of the main boilers and of the donkey boiler, if fitted.

It should also be stated whether it is proposed to use any of the existing straight shafting and, if so, a plan of the shafting should be forwarded, if obtainable.
