WEST AFRICA.

6th December, 1935.

The Secretary,  
Lloyd's Register of Shipping,  
LONDON.E.C.3.

Dear Sir,

We have to confirm our cable of the 30th November, a copy of which is attached, in which we informed you that the Greek s.s. "STEFANOS COSTOMENIS" had reported a crack in a plate forward below water line. This ship had 21 feet of water in the forepeak, and repairs were necessary before proceeding on her voyage to Trinidad. These were undertaken and successfully carried out, the vessel leaving yesterday as per our cable of this morning, and we herewith attach reports in connection with this operation.

Yours faithfully,
