# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

11th October, 1935.

Dear Sirs,

H. With reference to your report No. 5571 on the steamer "SCOTLAND MARU" and to the statement of the Owners Representative to the effect that this vessel was drydocked at Kasadashima in April, 1935, when the sea cocks and valves were opened up and examined, I have to acquaint you I am in receipt of a letter from the Kobe Surveyors intimating that the sea connections were not opened up and examined at that time, the Owners stating that the vessel was then to be drydocked for cleaning and painting as required in the Special Reasons List, and I shall be glad if you will be guided accordingly.

I am, Dear Sirs,

Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors,  
YOKOHAMA.
