Secretaries

Lloyd's Register of British & Foreign Shipping,

71 Fenchurch Street, London E.C.

Sir,

Enclosed we beg to hand you application form filled up for  
tion of freeboard of our steamer "Netherton".

Increased immersion to the extent of 3½ inches was granted  
a steamer in November last, but since then the new rules have  
into operation and we understand she will get about 4 inches  
onal. The "Netherton" is a sister ship to S.S. "Queen Helena"  
are informed that your Surveyor at New York has instructions  
per the latter steamer's mark to the extent of 4 inches.

The "Netherton" is at present at Kobe, Japan and we should  
to have the alteration made while she is there. We shall be  
to know if you can send out instructions to your Surveyor at  
port to do the needful and also what the expense of cabling  
amount to.

We are,

Yours truly,

John Greenleaf & Co.
