

s.s. "WAGLAND" now named "FJORD"

Norwegian Certificates were issued on the 5th May, 1934 to expire on the 4th May, 1939.

The vessel's name has now been changed to "FJORD", but no change has taken place in the port of registry.

According to Lloyd's Index this vessel would appear to be trading between American ports, and as the Society does not carry out Annual Freeboard Surveys on Norwegian ships, it is submitted no action need be taken in regard to the issue of a Norwegian Certificate in the new name at the present time.
