

5
copies as amended

ALEXANDER WATT will say:-

I am a Senior Ship and Engineer Surveyor to Lloyd's Register of Shipping stationed at Newcastle.

I was associated with Mr. Badger at the Survey for repairs of engines and boilers on the s.s. "SHEAF BROOK" between the 1st and the 19th November, 1935. The vessel was surveyed afloat and in dry dock at Messrs. Swan Hunter and Wigham's Yard at Wallsend-on-Tyne.

I produce a copy of my Report to Lloyd's which deals with the matters investigated by me.
