*amended.*

WILLIAM THOMAS BADGER will say:-

I am an Electrical Engineer Surveyor to  
Lloyd's Register of Shipping stationed at  
Newcastle.

I was associated with Mr. Watt at the  
Survey for repairs of engines and boilers on the  
s.s. "SHEAF BROOK" between the 1st and the  
19th November, 1935. The vessel was surveyed  
afloat and in dry dock at Messrs. Swan Hunter  
and Wigham's Yard at Wallsend-on-Tyne.

I produce a copy of my Report to Lloyd's  
which deals with the matters investigated by me.
