

COPY.

ALEXANDER WATT will say :-

I am a Senior Ship and Engineer Surveyor to Lloyd's Register of Shipping stationed at Newcastle.

I surveyed the S.S. "SHEAF BROOK" for repairs of engines and boilers between the 1st and the 19th November, 1935.

The vessel was surveyed afloat and in dry dock at Messrs.

Swan Hunter and Wigham Richardson's Yard at Wallsend-on-Tyne.

I produce a copy of my Report to Lloyd's which deals with the matters investigated by me.
