Hans
The Secretary,
Lloyds Register of Shipping,
71, Fenchurch Street,
London. E. C. 3.

Dear Sir,

s.s. "Alkaid" and "Albireo".

We have been instructed to prepare a design of Balanced Reaction Rudder for the above vessels, and we enclose herewith, duplicate plans of our proposed arrangement.

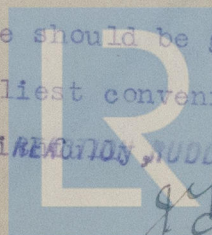

You will note that an additional gudgeon is to be riveted in position, and the bottom gudgeon is to be reinforced with electric welding to take a larger diameter pintle.

This arrangement is very similar to that proposed for the s.s. "Hans Arp" as approved by you in your letter of the 7th August, 1931.

As this matter is urgent, we should be glad to have your formal approval at your earliest convenience.
