

s.s. "ESSEX MANOR"

- - - - -

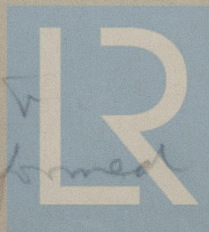

A representative of Messrs. Meldrum & Swinson the Owners of the steamer "ESSEX MANOR", which has been ashore in Japan, called at this Office today and stated that she was being taken to Yokohama for repairs.

His Owners were anxious to have a reliable representative on the job, and they trusted that, in these special circumstances, the Committee would agree to Mr. McGlashan, the Society's Senior Surveyor at Yokohama acting on their behalf in addition to his ordinary classification duties.

He exhibited a cablegram from Mr. McGlashan intimating that he would be prepared to act in this capacity upon receipt of cabled authorisation from the Committee.
