

COPY.

24th March, 1938.

Dear Mr. Parsey,

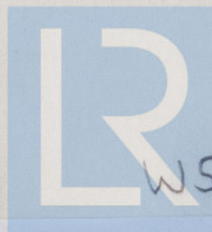

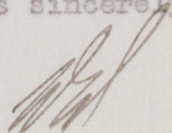

With reference to the "TAYLOR" enquiry, I am receipt of a message from our Sunderland Surveyors pointing to an error in Report No. 31997 hull and machinery.

In the hull report the dates of survey are given as December 23rd to December 26th with three visits. This should be December 22nd to December 26th with four visits.

In the machinery report the dates are given as December 22nd and December 23rd with two visits. This should be December 23rd with one visit.

You may wish to amend the copies of these reports which you have issued, but I will leave it to you to decide if this is necessary.

Yours sincerely,
