

s.s. "MILLPOOL"

At the enquiry into the loss of the "BLAIRGOWRIE", one of the British Corporation Surveyors was questioned as to why he had not produced his notes regarding his surveys, and on a subsequent date these notes were produced.

It is therefore considered advisable that the Society's Surveyors who are to appear at the enquiry into the "MILLPOOL" should be in a position to produce their note books and journals, and it is submitted they be instructed accordingly.

Dis. 3/7/35.
