## Lloyd's Register of British &amp; Foreign Shipping,

71, Fenchurch Street, E.C.

Enclosure

29th January, 1914.

Dear Sirs,

S.

With reference to your new steamer "KATHLAMBA", built last summer by Messrs. W. Gray & Co., Ltd., I beg to acquaint you that from a memorandum left by the late Dr. Thearle, the Society's Chief Ship Surveyor, it appears that he gave himself the pleasure of calling upon Sir John Ellerman on the 10th October with reference to the endorsement omitted from the classification certificates of this vessel, namely, "Cargo battens between frames only".

In the circumstances it has been thought well to prepare a fresh certificate of classification for the vessel containing the endorsement as decided by the General Committee of this Society when giving approval to the arrangement adopted in the case of this vessel, and I enclose a fresh certificate herewith and shall be obliged if you will be so good as to favour me by returning that originally issued.

I am, Dear Sirs,  
Yours faithfully,

Messrs. The Ellerman &  
Bucknall Steamship Co., Ltd,  
5 & 6 Billiter Avenue,  
E.C.

Assistant to the  
Secretary.
