ENCLOSURE.

14th August, 1931.

Dear Sir,

I have to acknowledge the receipt of your cablegram regarding the equipment of Messrs. Helsingborgs Varvs' Yard No.54, which being decoded reads as follows:-

"Helsingborg 54 Catalonia equipment letter p collective  
weight of bower anchors 88 cwts 1 qrs. 14 lbs. stream  
"anchor weighing 5 3 qrs. 24 lbs. ex stock weight of  
"anchor stock 1 cwts. 3 qrs. 4 lbs. can be approved stream  
"anchor".

With regard thereto I have to state that the matter has been carefully looked into, and it is found that the stream anchor, including stock, is 280 lbs. lighter than required by the Rules, and that, even allowing for the heavier weight of the bower anchors, the collective weight of all anchors is 63 lbs. less than required by the Rules.

In these circumstances it is considered that a stream anchor of the correct weight should be supplied, and I have therefore wired you to-day as per copy of translation enclosed.

I am, Dear Sir,

Yours faithfully,

E.T. Akeson, Esq.,  
HELSINGBORG.
