

Lloyd's Register of Shipping.

Port MANCHESTER.

28th January, 1933.

This is to Certify that

undersigned Surveyor to this Society did at the request of
 Messrs. The Superheater Co., Ltd., Trafford Park, Manchester.
 attend their works on the 24th January, 1933, for the purpose of
 inspecting 6 Steam Superheater Headers designated with cast
steel elbows.
 made to the order of Messrs. J. Dickinson & Sons Ltd.,
 and intended for Contract No. 256.

~~The cast steel headers in question were mechanically tested in
 accordance with the Rules of this Society. A copy of the results of
 the tests is appended.~~

and C.S. Elbows
 The headers/were, in the presence of the undersigned, tested by
 hydraulic pressure to 540 pounds per square inch and found satisfactory.
and C.S. Elbows

The headers/are, so far as can be seen, sound and free from
 defects, and are suitable for a working pressure of 180 pounds per
square inch.

Identification Mark:—

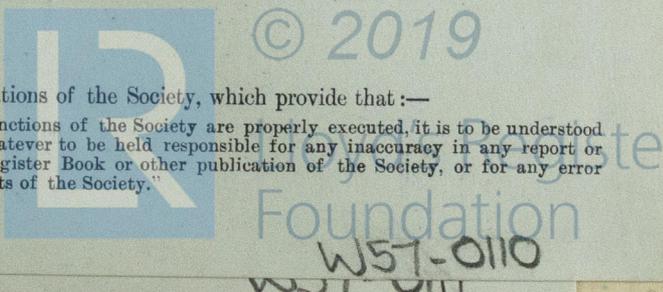

LOYD'S TEST.
540 lbs.
Working Pressure 180 lbs.
.1.33.

Engineer Surveyor to Lloyd's Register.

MANCHESTER.

Statement is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

The Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood
 that the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or
 statement issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error
 or negligence of the Surveyors, or other Officers or Agents of the Society.
