LLOYD'S REGISTER  
RECEIVED  
11 FEB 1932  
Anod. 11  
LONDON

Dear Sir

Messrs Maroussio.

We are informed by the Agents that this vessel has been chartered as a 4 hold ship, & that the shippers of the coal cargo wished to load a parcel in No 3 Hold or deep tank, the hatch of which on the 2<sup>nd</sup> deck is common to the deep tank & after hold. Owing to some unexplained circumstance part of this parcel got into the after hold, & the shippers are objecting to the vessel alleging that she has only 3 holds. The Agents are asking whether, if necessary to require - we will furnish them with a letter stating the vessel has 4 holds. - Will you please inform us of your decision as early as possible, tomorrow.

We are, Dear Sir,

Yours faithfully

The Secretary.
