

S. S. 1907/1911 Nagasaki.

It is submitted that in acknowledging the letter of 25<sup>th</sup> Inst from Messrs Brown McFarlane & Co they be informed that the reports sent to the Nagasaki Surveyors were <sup>copies of</sup> the usual reports made by the Surveyors to the Committee.

In the case of the report on the boilers, it contained particulars of the scantlings & construction of the boilers together with the remarks that "These boilers (13) etc - - - - - that pressure".

In the case of the turbine engines the report gave some details of the drums & casings and contained the remarks that "The turbines for this vessel - - - - - of L.M.C."

It is thought that this information meets their request made in the P. S of their letter
