71, Fenchurch Street, E.C. 3.

Ref: AD/A/M. 5402.

9th October, 1930.

Dear Sir,

S. With reference to your letter of the 3rd instant and to your previous communication of the 17th ultimo, respecting the question raised in reference to the survey held on the steamer "ORITA" by the Society's Surveyors at Liverpool in September 1929, I now beg to say that upon enquiry being made of the Surveyor who carried out the examination, he states that he examined No.5 double bottom tank internally and found the tank in good condition. He adds, however, that the tank was not submitted for examination under test at that time.

I am, Dear Sir,

Yours faithfully,

Secretary.

The Clerk to the Committee,
LLOYD'S,
E.C.3.
