

Submitted the Copenhagen Surveyors  
be informed that the owners of the S/S "St Petersburg"  
building by the Copenhagen Dry Dock Company  
state that they expect she will be delivered from  
the Builders on the 1<sup>st</sup> June, and desire to  
have the classification certificate delivered to  
them before the vessel sails in order to avoid  
the delay and inconvenience which has been  
experienced in the case of the S/S "Liban".

They should therefore be requested to have  
all the reports of their survey of this vessel  
prepared before she is completed so that they  
may be forwarded to this office on the same  
day that the survey is completed, and enable  
the certificate to be forwarded to the owner with  
the least possible delay.

In the case of the "Liban" when the survey  
of both hull & machinery was completed on  
the 27<sup>th</sup> April if this course had been pursued  
the owner could have been in possession  
of the certificate <sup>at the beginning of the month.</sup> ~~early in May.~~
