Sunderland, 24th September, 1918.

Dear Mr. Warren,

*Re. A.S. War Tempest.*

I regret to notice that I have given the size of the upper deck stringer bar in wells as 6x6x.56 which is what was in the sister vessel "WAR SPRAY". In this vessel it is 5x5x.58 as per Midship Section sent with report.

I hasten to let you know lest the 1st Entry section might be commenced.

I would be glad if you would be so kind as to alter the report to make it agree with the Section and ship as built.

*With kind regards*

Yours faithfully,

*J. Allan*
