Lloyd's List 22/4/25

**FERNDALE.** — Sydney, Mar. 18.—When leaving Brisbane for Sydney, one of the cylinders of the starboard main engine of the steamer Ferndale broke and is now out of action. The vessel is running with the port main engine quadruple and the starboard main engine triple.

Lloyd's Index 29. 4. 25

vessel arrived Hull 28. 4. 25  
on her way to London.

Capt Avern of the Australian Commonwealth Line states the vessel is due in London on the 2<sup>nd</sup> May — She will remain two or three days & then proceed to the Bristol Channel & will load on the West Coast for Australia — Capt. Avern would not say what was being done about the cylinder of the Starboard main Engine.
