General Remarks

(State quality of workmanship, opinions as to class, &c.)

The machinery and boiler of this vessel have been inspected throughout construction in accordance with the Society's Rules. The materials and workmanship are good. The boiler tested by hydraulic pressure, and with the engines placed on board and tested under steam, they are now in good order and safe working condition and respectfully submitted as being eligible in my opinion to be classed with the notation of *L.M.C. 1.06* in the Register Book.

It is submitted that
this vessel is eligible for
THE RECORD *L.M.C. 1.06*.
