NEWCASTLE/TYNE

Steamers "HIGHLAND HEATHER", "HIGHLAND STAR" and
"HIGHLAND WATCH" ✓

18 August 1928.

With reference to your memorandum of the 9th May last, I shall be glad to learn whether these vessels are still laid up. At the same time I have to point out that the Screwshaft Survey of the s.s. "HIGHLAND STAR" is now due.

These vessels are still laid up at Dunston-on-Tyne and the Owners Representatives inform us that they will advise the Superintendent regarding the survey now due on the screw shaft in the case of the "HIGHLAND STAR".

The Surveyor
per (S.S.) St. Davies
