Enclosures.

18th December, 1905.

Gentlemen,

S. I enclose herewith the first entry certificates on the hull and machinery of the steamer "HEREFORDSHIRE", recently built by Messrs. Harland & Wolff at your port, and have to request that you will kindly them over to the Builders in due course.

With regard to the length of cable which is in question the Society's Surveyors at Liverpool state that a new length was only delivered just before sailing and no opportunity was given to examine it, but that the Owners' Superintendent states that the cable will be submitted for examination on the vessel's return from her present voyage.

I am, Gentlemen,

Your obedient Servant,

The Surveyors,
BELFAST.

Secretary
