

# Lloyd's Register of Shipping,

9, Fish Trade Buildings,

Fleetwood, 16th September, 1933.

Mr. Keith,

With further reference to my reply to London of 24th ult. on the steam trawler "LOCH NEVIS", I have interviewed the managing director of the Boston Co., and though he definitely states that he wishes the vessel to be classed in Lloyd's Register he does not wish to stop the vessel specially for that purpose at present. He states that the vessel will be opened up for examination at the first convenient opportunity for examination and classification, and trusts that this will meet with approval.

I am,

Yours faithfully,

*W. S. Shields.*
