This is to Certify that

V i c t o r S d r o w e k

the undersigned Surveyor to this Society did at the request of Messrs. Maschinenfabrik Augsburg-Nürnberg A.G. attend at their works at Augsburg on various dates for the purpose of surveying during construction a fresh water re-cooler to the order of Messrs. Wm. Simons & Co. of Renfrew and destined for their yard No. 704.

This fresh water re-cooler has been submitted to internal hydraulic pressure of 6 atm. both of the fresh water space and of the cooling water space and was found sound and tight at that pressure, also the workmanship was good and the scantlings in accordance to the approved plan No. M 17908.

The longitudinal and the circumferential seams of the shell have been inspected during the electric arc welding process and were found in order.

For identification the fresh water re-cooler has been stamped:-

Lloyds Test
