S.S. "MOUNT ATHOS."

Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

ENCLOSURES.

29th March, 1938.

Dear Sir,

H.

With reference to the 2nd Special Survey No.3 which became due at the end of last month on the steamer "MOUNT ATHOS", I have to acquaint you I am informed by the Owners that it is proposed to commence this inspection now at Calais at which port the vessel is discharging cargo. In the circumstances I have to inform you that the Committee will authorise you to carry out the Special Survey in question in this instance.

I am directed to add, however, that, in view of the age of this vessel, your inspection should be of a stringent character, and every care should be taken to see that all necessary repairs and renewals are carried out to your entire satisfaction.

For your information I enclose a sheet showing the original scantlings of the ship, on which have been indicated the scantlings of the shell plating as required by the present Rules, together with two copies of the drilling sheet.

I have further to inform you that your recommendations in respect to any renewal or doubling of any individual plates found to be unduly wasted, may, provided the surfaces of the plating are in good condition, take account of the thickness

Received from Chief Surveyors

"MOUNT ATHOS"

-2-

Report

Rot.

No. 222 16

For the CHIEF SURVEYOR and

of shell plating required by the present Rules, as well as the original thickness.

You will be so good as to return the enclosed sheet when forwarding your report on the case.

I am, Dear Sir,
Yours faithfully,
Clerk to the
Classification Committee.

The Surveyor should be informed that his recommendations in respect to any renewal or doubling of any individual plates found to be unduly wasted, (provided the surfaces of the plating are in good condition) take account of the thickness of shell plating required by the present Rules, as well as the original thickness.

M. Adam Esq.,

DUNKIRK.

The Surveyor should be requested to return the enclosed sheet forwarding his report.
