

S.S. "LA CRESCENTA".  
-----

It is submitted the Board of Trade Solicitor be informed that the fracture referred to by the Falmouth Surveyor in September 1928 is the same fracture which is referred to by Mr. Munro at Barry in September 1930, the apparent difference being only a difference in terms used.

If the Board desire further confirmation regarding this matter they might be requested to forward a copy of the shell expansion plan referred to in their letter, as there is no shell plan in this Office.
