SAN FRANCISCO September 26, 1921.

The Secretary,
NEW YORK.

LLOYD'S REGISTER
NEW YORK
REC'D SEP 29 1921
ANS'D

Dear Sir,

I beg to acknowledge receipt of your letter of the 20th instant having reference to my 1st Entry Report No. 3569 on the S.S. "ACHATINA", and in reply thereto have to state that double side transverse shell lugs are fitted in the machinery space and the spacing of the transverses at ends is as approved.

With regard to the number of bulkheads in this Vessel, the number as stated in the 1st Entry Report is correct, viz. 11 to upper deck and 4 to second deck, as the bulkhead forming the after end of the oil fuel tank has bolted plate doors fitted to it which will be removed when vessel is using ordinary coal.

Yours very truly,

A. W. Mc Nabb
