Lloyd's Register of British & Foreign Shipping.

71, Fenchurch Street, E.C.

18th August, 1911.

Sir,

With reference to Glasgow Report No. 28857 on the low pressure turbine for the steamer "DEMOSTHENES" recently built by Messrs. Harland & Wolff, I have to acquaint you that the Committee had the first entry reports on this vessel before them yesterday and have assigned to her the class of 100 A1"awning deck with freeboard" with the notation LMC 8-11.

With reference to the portion of the Special Survey fee on the machinery to be credited to the Glasgow Office for the survey of the low pressure turbine during construction, it is considered that as it is usual to apportion one third of the total fees for the survey of a vessel's engines, one third of this amount should be credited to your Office in the circumstances of the present case viz:- £8.10.0. and the Belfast Surveyors have been informed accordingly.

I am, Sir,

Your obedient Servant,

Secretary.

The Secretary,
GLASGOW.
