Report, No. 100276 Port Lw

If the Vessel has Water Ballast Tanks, state whether the manhole covers have been removed, and the insides of tanks examined. Also state the amount of deterioration (if any) found in the thicknesses of the floors, framing, and of the inner bottom plating, especially in the boiler space.

Surveys, when held, must be reported in detail and seriatim in the terms of the Rules. State clearly the nature and extent of Examination and subsequent repairs. Repairs of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; sides being detailed in the body of the report, should be summarised in the form shown below. Whenever the amount of Anchors or Chains is reported, the particulars should be clearly stated in the space provided on this form. State also the dates and initials of any letters respecting this case.

In cases where the Surveyor has not made a special damage report he is required to state whether he has made his services for this purpose and to whom and why they were declined.

Was a damage report made by anyone else? If so, by whom?

General Observations, Opinion as to Class, Recommendation, &c.:—

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon survey, thus, for example:—"to remain as now classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of survey, 1,24," or "to remain as classed and to have record of survey, 1,24, and the notations of ss No. 1-24 and pEND24, &c."

This vessel, so far as seen, is in an efficient condition, and is eligible in my opinion to remain as classed with fresh record of survey 1.34.
