Re. S.S. "EMPRESS".

Dear Sir:-

With reference to your letter of 19th instant regarding the above steamer beg to report -

The matter was taken up with the local C.P.R. office today and they advise that no definite arrangements have been made as yet, but their opinion is that the steamer will not be placed in service before next April, if then. She has been tied up at West Saint John since August 27, 1930 and it may be that the Owners will keep her as a spare boat to be used only when the new "PRINCESS HELENE" is off the route.

When anything definite is received from the Owners regarding the matter, I will immediately advise you.

I am, Dear Sir,

Yours very truly,

C. E. Dalton
Surveyor.

Regarding the matter, I will transcribe what I have been told from the Cavels.

When anything is being done, it is all the time. The new MINISTERS are in the room. The Cavels will, keep up, as a whole, and if they be tried up at least 2000. The Cavels will not be blessed in relation before next what, it is then. The Cavels will not be made as yet, but their opinion is that the Cavels will not be today and they agree that no definite arrangements have been made as yet.

The matter was taken up with the local C.E.B. office. The whole matter was taken up with the local C.E.B. office. The whole matter was taken up with the local C.E.B. office.
