71, Fenchurch Street, E.C. 3.

23rd October, 1931.

Dear Sirs,

With reference to the Boiler Survey which became due last June on the steamer "OANFA" I have to acquaint you that the Society's Surveyors at Glasgow recently stated that this vessel had been sold to Japan for breaking up purposes.

The boilers have been generally examined under steam at Immingham and found satisfactory, and it is understood is proceeding to Singapore with a cargo of coal thence to Japan, and in the circumstances I shall be glad if you will give the case attention in due course and advise me immediately the work of demolition has been commenced.

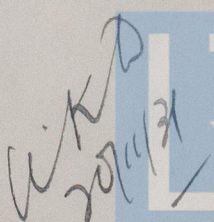

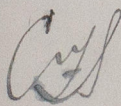

You will also be so good as to let me know the name and addressed of the purchasers.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

KOBE.
