

SOUTHAMPTON

18th January. 1921.

HENRY GILBY.

representing the David steamship Co, Ltd., Owners, examine the  
"S" 7074 Tons gross, in order to ascertain her general condition.  
On January 8th and subsequent dates the vessel being afloat  
at Southampton Docks.

Between decks, engine and boiler space, bunkers, peaks, decks,  
coverings and supports, masts and rigging, windlass, steering  
gear, W.T. doors, casings, ventilators and general equipment  
as far as practicable and all found in good condition.  
Machinery, 1 steam and 1 kedge in good condition.  
Rudder, propeller and under water fittings were not examined.  
From my examination and after reading Mr. James Bradley's  
survey report dated Liverpool February 19th 1920. I am of  
opinion that the vessel is in a fit condition to run for a further  
six months as from January 1921.
