Survey Due 2nd Special Survey No.1 due 4,30.
Boiler Survey due 1,31.

A proposal to have the Special Survey held when the vessel was docked in August or September was agreed to by the Committee in May last.

In October the Owners wrote, however, that the steamer was laid up at Singapore and asked to be allowed to postpone the inspection until it was decided at some later date what would be done with the vessel. In the circumstances the Committee deferred action in the matter for a time.

The Owners now state that the steamer is still laid up at Singapore.
