

S.S. "YONAN MARU"

It is submitted Mr. Cox be thanked for the valuable information contained in his letter of the 11th instant, and in doing so an enquiry might be made as to whether he is in possession of any information as to the method of stowage of the grain cargo - whether this was stowed in bulk or whether it was stowed partly in bags.

It would also be of advantage to know if shifting boards and feeders were fitted, in view of the statement that the vessel has undertaken many Pacific voyages under similar conditions.

Perhaps also Mr. Cox might inform this Office as to the density of the wood which was carried in the 'tweendecks and on deck respectively.
