The Second Special Survey No. 3 on this vessel, became due at the end of June. The vessel has been laid up in Spezia Harbour since March 1928.

The Genoa Surveyors now forward the following cablegram, viz:-

"The following cablegram has been received from the  
"Society's Surveyor at Manila Pincio prospective  
"purchasers desire complete reclassification report  
"on condition hull and machinery Stop. Telegraph  
"cost message ends please cable reply direct to  
"Society's Surveyor at Manila."

It is submitted the Manilla Surveyor be informed by cable that, as will be seen from the Register Book, the Second Special Survey No. 3 became due in June last, and should now be held.

He should further be informed that if the written consent of the present Owners is obtained, the Genoa Surveyors could be authorized to Survey the vessel on behalf of the intending purchasers, with a view to making recommendations, as far as practicable, as regards any necessary repairs, but the Surveyors could not make any estimate as to the cost that would be involved in carrying out the Second Special Survey No. 3, or of effecting any necessary repairs.
