Lloyd's Register of Shipping,

High Close,

Wokingham, Berks.

13th August, 1940.

Dear Sirs,

With reference to your Report No. 50779 on the Dutch steamer "OOSTPLEIN", I have to acquaint you that the Committee have today assigned in this case a record of "Examined L.R. 7.40", as recommended.

From discussions which have taken place with the Netherlands Shipping & Trading Committee, it appears that they did not intend to submit this vessel for full classification with this Society, and that it is not desired under the present circumstances to complete such inspection. In the circumstances you should charge a special fee of £25.0.0, to include the work on Hull and Machinery already done, in addition to the special Freeboard verification fee of 1 guinea already charged. I may add that this amount is being entered on your reports.

I am, Dear Sirs,

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,
HULL.
