PORT OF

21st May, 1920.

Mr. Hutchinson,

With reference to New York Report No.18297 on the Special Survey No.3 for classification of the S.S. "FORT VICTORIA", I notice that you made a pencilled entry at the end of this Report, stating that the First Entry Report would follow in a day or two.

We have waited for one or two mails but nothing appears to have turned up, and in the circumstances, I thought it well to cable to you officially to-day as follows which I now confirm:-

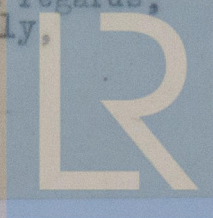

RT VICTORIA	-	Vessel's Name.
ELK	-	Please refer to your Report No.
297	-	
YZY	-	First Entry Report
BOF	-	Report not yet received.
PSA	-	Forward
AE	-	
VGM	-	As promptly as possible.

I take this opportunity to point out that the Minute on your report gives 100A- as the vessel's class, but as she would appear to be a shelter deck vessel, the correct class should be "100A-, shelter deck with freeboard", and for this reason we are anxious to have the First Entry Report on the case. With kindest regards,

Yours faithfully,

Hutchinson, Esq.,
NEW YORK.
