

S.S. "SORRISO".

This vessel has been under the inspection of the Society's Surveyors at Marseilles for 2nd Special Survey N°3. Mr. Jones, one of the Marseilles Surveyors, has called at this Office today and stated that the Owner has stopped the survey as he does not wish to go to the expense which he finds will probably be necessary on account of the condition in which the ship has been found, particularly as regards the decks, side bunkers and tank under boilers. It is understood to be the Owners' intention to take the vessel to Genoa to be broken up and Mr. Easthope is awaiting a letter to this effect from the Owner.
