

Steel Non-Propelling Dredger "CYCLOPE".

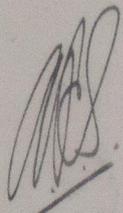

This vessel has been built by Messrs. Hawthorn, Leslie & Co.Ltd., under the Special Survey of the Society's Surveyors.

The date of the last Survey was 17th April, and the First Entry Report came to hand in this Office on the 22nd instant.

In the meantime, however, the Dredger which was being towed from the Tyne to Havre, has been lost in the North Sea.

It is submitted that in the circumstances, and as in similar previous cases, the vessel might be assigned the class contemplated, and a certificate of classification issued to the Builders in the usual manner, upon payment of the fees.

After this has been done, the class should be deleted and a notation "Lost 4.31" (or as may be decided by the Committee) inserted in the Register Book.

23. 4. 31.
