

S.S. "NOWSHERA".  
-----

The Owners' Superintendent was communicated with by telephone this morning regarding the plans which the Belfast Surveyors state have been sent by the Builders to the Owners.

The Superintendent stated that these plans had just come to hand, and that as the vessel was going into dock tomorrow, 19th instant, the Owners' Representative proposed to take them with him to Falmouth today, and to hand them to the Society's Local Surveyors for their guidance in carrying out the survey for classification.

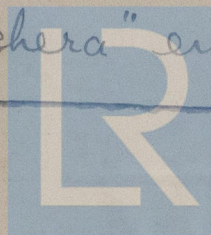

It is submitted the Falmouth Surveyors be advised accordingly, but as the plans which it is understood the Owners will hand them have not yet been verified in this Office, the plan/ of the Sister vessels, which are classed with this Society, be forwarded for their guidance, and also the report received from the Hull Surveyors on the partial survey held by them might be sent for their information.
