71, Fenchurch Street, E.C. 3.

7th April 1923.

Dear Sirs,

The British India Steam Navigation Company, the Owners of the S.S. "NOWSHERA", No. 68837 in R.B., have expressed the wish that this vessel should be classed with this Society, and for this purpose plans are being obtained for examination of the scantlings and arrangements, and the vessel will be docked at Falmouth on the 19th instant for survey.

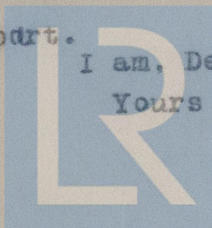

It is understood, however, that this steamer will arrive at your port on Monday, the 9th instant, and the Owners wish the survey for classification to be commenced at once so far as the bunkers are concerned, as it is proposed to put coal on board.

I shall therefore be glad if you will arrange to commence the classification survey in so far as the bunker spaces are concerned, and to take a note of the scantlings and arrangements at that part.

I am, Dear Sirs,

Yours faithfully,

veyors,  
L.
