

COPY.

13th January, 1938.

Dear Sirs,

H.

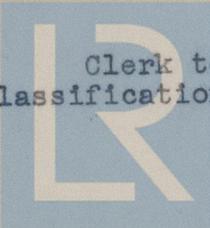

With reference to the case of the steamer "NIRITOS", which vessel it is understood is now under your inspection, I have to acquaint you a representative of the Owners has called at this Office today and stated that it is desired to fit into this vessel a donkey boiler taken out of the Motorship "Nestor", No.30606 in the Register Book, and in this connection I have to inform you that provided you can satisfy yourselves that the boiler was previously classed with this Society, it could be installed if found in good condition.

You will be so good as to let me know the identification marks on the boiler, and, if there is no available certificate, a note should be taken of the principal dimensions, and this information forwarded to this Office for comparison with the First Entry Report. should it be found from the marks one is available in this Office.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
ROTTERDAM.

 Clerk to the
Classification Committee.
