S.

Dear Sir,

In reply to the query in the classing letter of the 22nd instant regarding the case of the S.S. SUTTON Hull Report No. 32213, I beg to state that the spacing of the frames is 21½" as approved; the rivets in the keel butts are 7/8" dia. and that the test of the steel wire towline was 15½ tons breaking strain and I regret these clerical errors on the report.

I am, Dear Sir,

Yours faithfully,

*Matthew Blackwood*

The Secretary,

LONDON E.C.3.

The test of steel towline is as required but the Surveyors should be requested this is so.
