

Motorship "MARIENBORG"

In July 1924, the Society's Oslo Surveyors held a Special Survey equal to a Half Time Survey on this vessel, for which fees amounting to Kr.937 (£42.6.9) were charged.

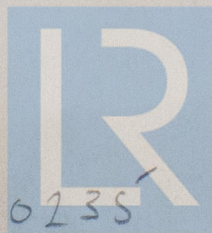

The vessel was wrecked in September 1924, when the fees were still outstanding.

Numerous applications have been made of Mr. Henckel, the Owner, by the Society's Copenhagen Surveyors, and he has made several promises to settle this account, but the amount is still outstanding and the Copenhagen Surveyors state that there is not much hope of these fees ever being paid.

6.9.26.
