

Lloyd's Register of Shipping.

95, Bothwell Street, Glasgow, C.2.

30th August, 1935.

Dear Sir,

With reference to the Secretary's letter of the 29th instant respecting the capacities and length of the double bottom tanks in the "ARGENTINE TRANSPORT", I beg to state that the capacities as given on the report are correct.

These include the dry tank under the boilers which has the usual air pipe and suction and has been tested as per Rule, but do not include the cofferdams.

The total length of the double bottom excluding cofferdams is 346.1 feet and including the cofferdams 350.8 feet and not as inadvertently stated in the report.

I am, Dear Sir,

Yours faithfully,

H. Thomson

The Secretary,

GLASGOW.
