Lloyd's Register of British & Foreign Shipping,

71, Fenchurch Street, E.C.

26th February, 1914.

Dear Sirs,

I have to acquaint you that the Society's Surveyors at West Hartlepool report that to complete the first entry machinery survey in the case of the S.S. "BANKA" and to entitle the vessel to the record of * LMC 2.14, the superheater safety valves require to be adjusted to 190 lbs and the main boiler safety valves to 185 lbs, and I have to request that you will give this matter attention on the vessel's arrival at your port.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,
AMSTERDAM.
