

GREENOCK,

24th July, 1928.

WM. GORDON MINCHIN,

Messrs. John G. Kincaid & Co., Ltd., Engineers, Greenock,  
survey during construction, two Steel Air Reservoirs, intended  
for their Engine No. K.30 - Messrs. William Hamilton & Co's  
M. V. No. 404.

The scantlings are in accordance with the  
Rules for a working pressure of 356 lbs. per square inch.

The material has been tested by the Surveyors  
to this Society.

These Reservoirs were tested in the presence  
of the undersigned to a hydraulic pressure of 556 lbs. per  
square inch, and found tight at that pressure.

The working pressure should not exceed three  
hundred and fifty-six pounds.

Mark on Reservoirs.
